

## JOIN OUR AMAZING TEAM

## (Senior) UI / UX Designer (m/f/d)

[APPLY NOW](#)

### Tasks

You are passionate about user-centered design and love designing in figma. Working with our designers, PO's and developers you'll translate your designs into great experiences.

You love user testing and refining designs until they make great experiences. You love working with state of the art AI technology to reliably and safely identify millions of customers.

You are responsible for building prototypes and flows and testing with real users over zoom and in person.

You're a geek when it comes to figuring out the best solutions to complex UX problems with figma design systems and plugins.

### Qualifications

A minimum of 3 years of working experience in App and Web Design helped you to develop a great eye for UI design that is shown in your portfolio.

Skilled in working with Sketch/ Figma, Adobe Suite (Photoshop, Illustrator, InDesign) and presentation programmes (Powerpoint/Keynote). After Effects and Lottie would be a plus.

You are familiar with working in Agile teams using Jira and Confluence and you prefer to work independently and hands-on.

You bring strong (english) communication skills to the table in order to collaborate with different team members. Additional german skills would be a plus.

### We offer

We value development: use your training budget for what excites you the most

Growth Environment: Employment in a leading, fast-growing technology company with experienced, motivated colleagues

International: Our team consists of 40+ nationalities; we are present and expanding in many countries throughout Europe

We make your remote work comfy: we provide support on equipment and offer flexible working hours

We look forward to receiving your compelling application including previous work examples, a possible start date and salary expectations. In case you have further questions, please feel free to contact us via [jobs@idnow.de](mailto:jobs@idnow.de).
