

## Senior Android Developer (f/m/d)

**This position is based in Rennes, France.**

As an Android mobile developer, you will be involved in the evolution and maintenance of our applications and SDKs, used by our clients and in our own applications.

### Main Role and Tasks

As an Android Developer, you will participate in the evolution and the maintenance of our mobile apps SDK, used by our clients and in our own services.

You will be part of our mobile team of 5 people:

- You participate in the elaboration of detailed technical and functional specifications.
- You will design and develop the new features of the service (Design/Development/Testing of expected features)
- You validate the correct operation through the realization of automated tests
- You provide support to the people in charge of customer support (CSM/Sales)
- You will evaluate work procedures and make proposals to optimize them

### We Offer

- Up to 2-days of remote working per week
- Flexible work time with a core hours system
- 20 additional days of workation: Work remotely from anywhere in France
- 12 additional days off
- Access to an e-learning platform
- Health insurance
- 50% reimbursement of public transportation subscription
- Bonus for green mobility

Eventually, it will be possible for you to lead and be responsible for the application domain entrusted to you around a strong technical culture and agile methods

- The stack:
- Kotlin, Compose  
Android, Gradle
- Continuous integration: Fastlane, Git, Sonar, Jenkins  
Identity and access system (OAuth2 standards, Open ID Connect, Keycloak, ...)
- Design System, Figma, Lottie

***Our technical stack:***

- Kotlin, Compose
- Android, Gradle
- Continuous Integration : Fastlane, Git, Sonar, Jenkins  
Access and identity systems (normes OAuth2, Open ID Connect, Keycloak, ...)
- Conception: Figma, Lottie

- Lunch allowance of 8€ per day, reimbursed 60%
- The opportunity to participate in the development of innovative products that impact the public across Europe.

*IDnow applies the principles of non-discrimination and equality: We strive to establish, maintain, and promote an open and inclusive recruitment process and working environment by respecting the principles of equal opportunities. Including but not limited to: sex, race or ethnic origin, religion or convictions, gender identity, citizenship, marital status, disability, age, or sexual orientation.*

## That Describes You

You have **at least 5 years of successful experience in Android development** in an Agile team (Scrum, Kanban) and in a continuous integration context. Ideally, you are aware of documentation writing (technical or tests). Technical skills which are a “must”:

- App publishing experience
- Good knowledge of the Android platform (Kotlin) and the Google ecosystem
- Knowledge of architectural patterns (MVVM, MVI)
- Experience with web services (JSON, XML)
- Experience with build automation tools (Jenkins, Fastlane)
- Experience with Continuous Integration, Continuous Delivery

- Experience with 3<sup>rd</sup> part libraries and SDK integrations
- Culture of testing (unit, instrumentation) and sensitivity to code coverage

***Skills, we'd like you to have, but that can be improved or learned in the first few months:***

- Application security/low-level optimization skills
- Experience with Compose
- UX/UI sensitivity
- Ability to read and understand C/C++ code
- Knowledge of collaborative tools JIRA, Confluence
- Security (App shielding, Strongbox, Secure Element, TEE, Cryptography, Certificates, Signature)

***Skills considered to be a plus:***

- Cross-platform technologies knowledge (React-Native, Flutter)
- Image Processing knowledge (openCV, openGL)

***Our Recruitment Process***

- First call with the Talent Acquisition Specialist (30 min - video call)
- Second interview with the Hiring Manager and someone from the team (1h - video call)
- Use case to prepare at home (1 week)
- Technical interview based on your work with the Hiring Manager and someone from the team (2h - on-site is preferred)
- Final interview with the Department Director (1h - video call)

**Challenge accepted?**

Then I'm looking forward to hearing from you!
