Java Developer (f/m/d)

IDnow, a leading global provider of identity verification solutions, is looking for a Java Backend Software Engineer.

As part of a 9-strong scrum team, you will be working on the backend of our digital identity solutions, Yris, IDnow Wallet...

Main Role and Tasks

As a Software Engineer Backend you will be responsible for :

- Participate in drawing up detailed technical and functional specifications in line with the functional requirements defined with the Product Owner;

- Design and develop new service functionalities (Design/Development/Testing of expected functionalities);

- Validate correct operation by running automated tests;

- Provide support to the people in charge of customer support (CSM/Sales);

- Evaluate work procedures and suggest improvements;

We Offer

- **Health & Wellbeing:** Use your full access to Nilo.Health, including 1on1 sessions

- **We value personal and professional development:** make full use ot the training Platform Udemy!

- A supportive feedback-based culture where **respect and integrity** guide us in what we do

- **We make your remote work comfy:** we provide support on equipment and offer flexible working hours; we help you collaborate and connect with your colleagues both locally and remotely

That Describes You

- At least 2 years' experience in a similar position
- Ability to work independently on assigned tasks and to report to other team members.
- Good communication skills.
- Fluent in English
- **Technical skills**
- Java, SpringBoot, Keycloak
- Security (Cryptography, Certificates, Signature)
- Continuous integration (GIT, SONAR, JENKINS)
- Docker / K8S deployment
- Strong technical culture
- Agile methods.
- **The pluses**
- Identity and access system (OAuth2 protocols, Open ID Connect; Keycloak, etc.)
- Self-Sovereign Identity concepts for the EU Digital Identity Wallet (Verifiable Credentials, DID, etc.)
- Experience in Kotlin development Automated deployment with Ansible
- Containerisation with Docker and Kubernetes

Our team is made up of people from a wide range of backgrounds, and our day-to-day work is based on a spirit of caring and mutual support.

Challenge accepted?
Then I'm looking forward to hearing from you!
